

AH Sales

If You Can Design It, We Can Make It

*Window Treatments, Bed Coverings and An Entire Line of
Products for the Hospitality Industry*

WHO WE ARE

Based in Medley, Florida, AH Draperies has the experience to produce the best results in any of the projects our customers have in mind.

AH Draperies is apt to, and will meet tight schedules while doing whatever it takes to complete a job on, or before the promised date. We will not fail to deliver.

Our cadre of installers throughout the country are trained to handle many types of installs, from construction to renovation, and will work close with the contractor and us, to perform quality labor in a timely fashion.

Our goal is to provide quality window treatment and bed coverings for our clients, from the five star resorts to the standard hotel. We bring our type of client the experience and ability to handle whatever a project needs, no matter how demanding.

AH Sales, people who truly care, with great quality and outstanding services, with women owned and minority certificates.

WHAT WE PROVIDE

OUR MISSION:

Our mission is to support our customers in order to provide them with the best of the services. It is about what we can do for you.

We begin by analyzing window shapes, sizes and locations. Custom window treatments are designed to be appropriate to the function of each room and to complement windows, style preferences and budget. Function often demands special touches: blackout qualities are important for bedrooms and media rooms, motorization for ease and safety. Window treatments can also be designed to help correct deficiencies in room scale and proportion.

From color, pattern and texture selection of blinds, curtains, draperies, valances, cornices, swags, scarves, window shades, to fringes, tassels and all hardware, count on AH Sales to present the ultimate solution for your windows.

As we say: "If you can design it, we can make it!"

WHAT WE PROVIDE

INSTALLATION:

When we do an installation or repair, either locally or out of town, we only use our experienced installers. Our people know what they are doing. We know that they will show up and do the job right. We don't use pick-up crews or local installers. On numerous occasions, we've been called in to fix other people's work. In one instance, the client ordered from our competitor, ran into problems and called to ask, "Can you come help us out?" You can always count on us.

GLOSSARY

WINDOW WALL:

The wall on which a window and or glass door exits which is to be covered with draperies and/or curtains.

WINDOW TREATMENT:

The manner in which the window wall or part of the window wall is to be covered with draperies and/or curtains.

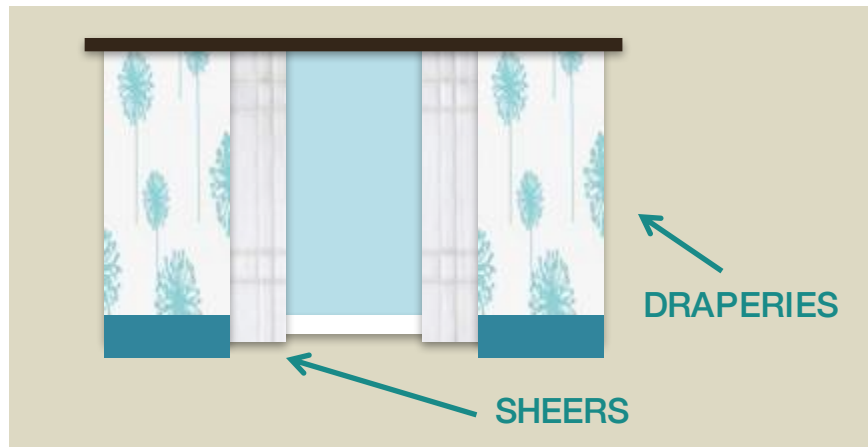

GLOSSARY

DRAPERIES:

As compared to curtains. Draperies are generally heavier than curtains and are used to effect complete or partial privacy and complete or partial room darkening.

CURTAINS:

As compared to draperies. Curtains are generally lightweight and are used to give only a “feeling” of privacy and to diffuse incoming light without blocking it. In the hotel industry there are two types of curtains- Sheers and Casements.

GLOSSARY

SHEERS:

Very lightweight, solid fabrics, somewhat gauzy. Either “Batiste” which has a slight horizontal slub in the yard, or “Voile” which has no slub, is flatter than Batiste and is shinier.

VOILE

BATISTE

GLOSSARY

BLACKOUT DRAPERIES:

The term used to describe draperies that have been manufactured in some manner so as to provide a room darkening feature which allows guests to sleep during the day. There are two methods of creating blackout draperies. Either laminated or sewn in blackout lining.

GLOSSARY

SEWN IN BLACKOUT LINING:

A method of creating blackout draperies by sewing a blackout lining together with the face fabric. The lining is a separate fabric which has already been made into a blackout fabric. The lining is then joined with the face fabric by sewing them together at the top and side hems. There are two types of blackout linings. Vinyl and Soft Suede.

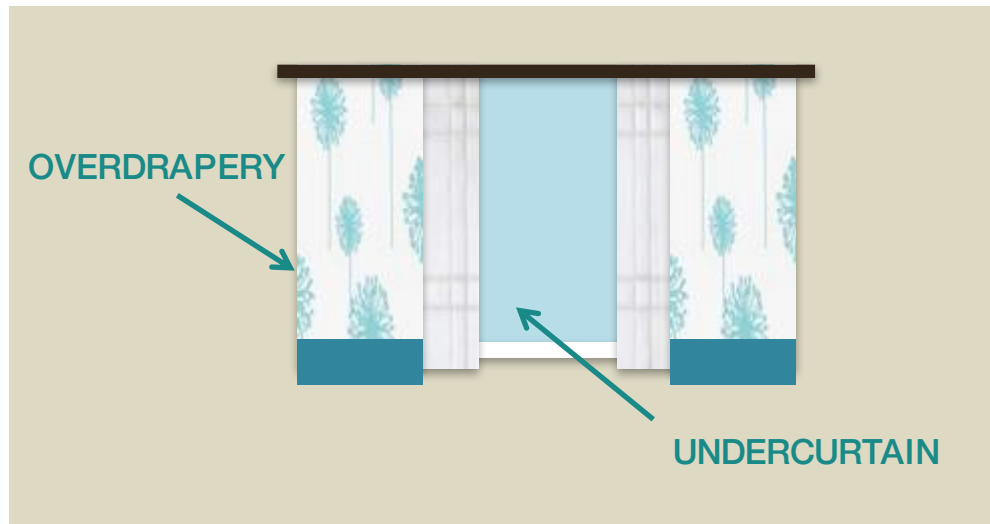

GLOSSARY

OVERDRAPERIES:

The term applied to draperies when they are used together with sheers or casements and are on a track further from the window than the sheers or casements.

UNDERCURTAINS:

The term applied to sheers and casements when they are used together with overdraperies and are on a track closer to the window than the overdraperies.

GLOSSARY

TWO TRACK SYSTEM:

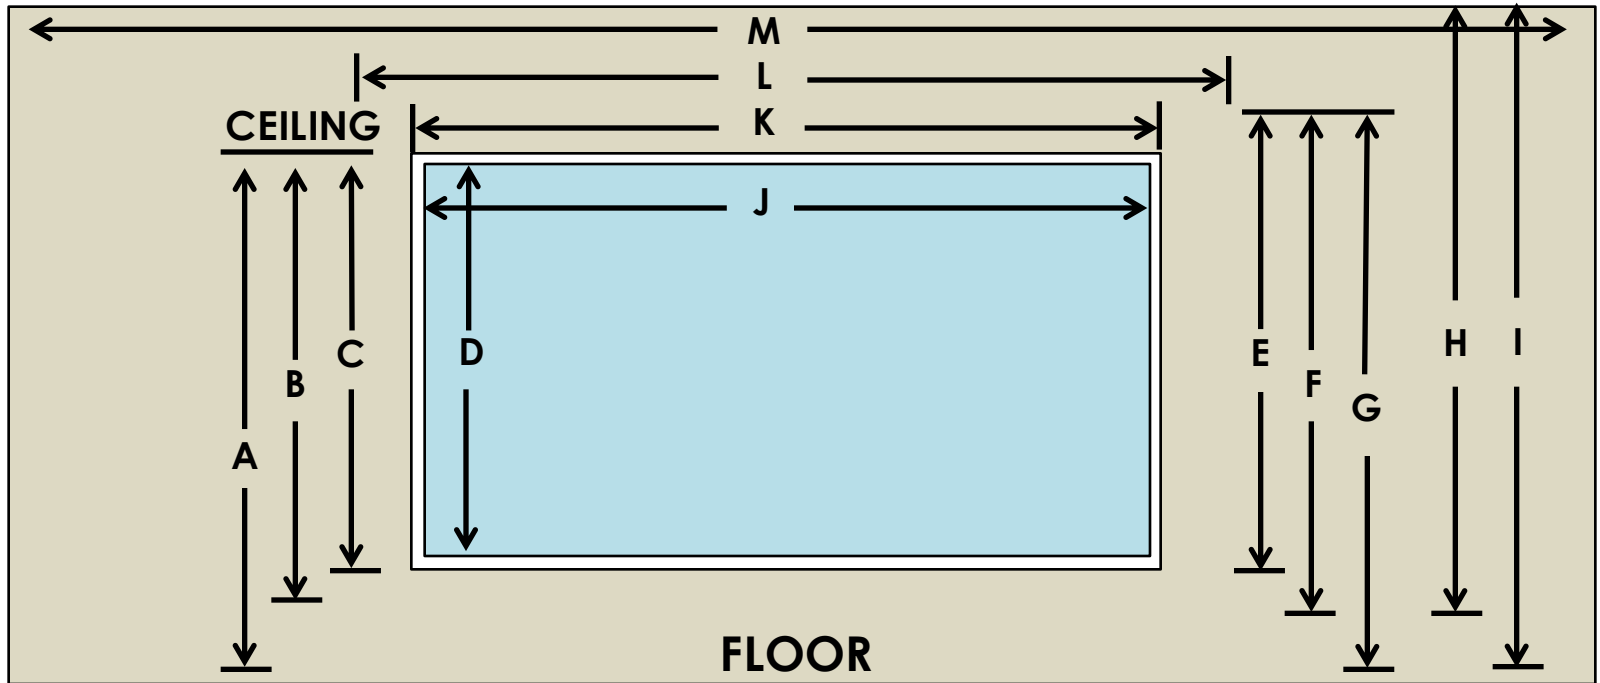

A window treatments employing two sets of drapery hardware on which one carries the undercurtains and the other carries the overdraperies.

THREE TRACK SYSTEM:

A window treatment employing three sets of drapery hardware on which one carries a blackout liner closest to the window and a second carries a sheer or casement, and a third which is furthest from the window carries side panels or a valance.

HOW TO MEASURE

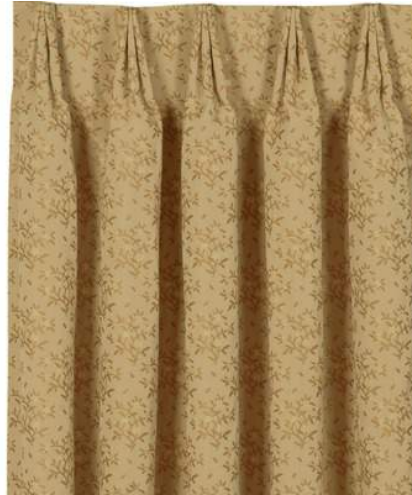

LETTER	DESCRIPTION	LETTER	DESCRIPTION
